Make our Brentwood Active

Active Brentwood is one of 14 Active Networks across Essex plugged in to each local authority area, adopting a ‘whole system approach’ to create a more physically active and healthier county. All Active Networks are committed to achieving the mission of Changing One Million Lives to Get Essex Active. In Brentwood we are searching for the best ideas that will help encourage those most at risk of inactivity in the borough to change their behaviour towards a more physically active lifestyle and help make Brentwood a healthier place.

We know applications can be both daunting and time-consuming and many great ideas can be lost. That’s why we want to start conversations, listen to great ideas (big or small) that will help get Brentwood active.

Simply tell us your idea by completing our short form and we’ll let you know if we can help. If form filling isn’t for you then alternatively send us a 3-minute video or audio clip using the form as your script.

Please note this is not a funding application at this stage but an opportunity for us to find out whether we’re able to support your idea by reviewing it against our priorities and respond to you quickly, saving you a lot of time and stress.

Even if we can’t directly support you, there are other ways we might be able to help. We’ll also be able to advise whether your idea is suitable to be considered through one of several different avenues or provide you with links to other organisations who may be able to support.

Have a look through the guidance below and see if your idea might fit the criteria.

What we want to support:

We want to support ideas that help everyone in Brentwood to take part in physical activity and improve their health and wellbeing. Whether that’s formal sport, going for a walk or supporting people to connect through physical activity, we want to get people moving.

Our priority is to support activities which reach those most in need or those not currently engaging in physical activity or looking after their health. People may not be active due to a lack of motivation, capability or opportunity and we want to change this. We want to support activities that are relevant, engaging and help people change their behaviour to a more physically active and healthier lifestyle.

We’ll also consider ideas that contribute to the broader aims of our strategy. We’re particularly interested in ideas that involve groups.

Our strategic priorities of Active Brentwood:

• Improve health and wellbeing – to change behaviours to reduce inactivity and make a real impact on physical and mental wellbeing.
• Drive and sustain participation – more people being active and living a healthy and active lifestyle.
• Develop individuals and organisations – enabling people and individuals to develop skills, achieve goals and maximise their potential.
• Strengthen localities, communities and networks – raising the profile and impact of physical activity and sport.
