Working to keep the nation active – Blog post 17th August from Ali Donnelly Executive Director of Digital, Marketing and Communications

Since the coronavirus outbreak, one of Sport England’s two main priorities has been to keep the nation active - here, executive director Ali Donnelly blogs about how they’re doing that and what they’re learning about the challenges that lie ahead. New: **ELDP Physical Activity Dashboard**

This dashboard allows you to profile Essex communities to identify physical activity and inactivity levels, and to identify the extent of possible key drivers of activity levels down to an LSOA level.

Together, this information provides a springboard for further research; actionable insight enabling ELDP and Active Essex to deploy targeted resources to communities most in need; and an evidence-base to inform your commissioning decisions, intervention development and implementation. [Click here](#) to use the tool.
Insight, research and data from Sport England

Visit Sport England’s Know Your Audience page for a wealth of tools, research and data which will help you understand why we are or aren’t active.

Essex Local Delivery Pilot:
The Essex Local Delivery Pilot (LDP) is a an exciting initiative, led by Active Essex, to build healthier,
more active communities across Essex. An active lifestyle creates huge benefits for the health and
wellbeing of individuals and families, as well as making local communities more vibrant, connected, and
resilient.

Essex Local Delivery Pilot Chapter One – Getting Ready for System Change

Essex Local Delivery Pilot Chapter Two – Delivering Systems Change
As more opportunities to be active resume, new guidance released will help providers to enable welcoming, and more accessible environments. Activity Alliance has published Reopening Activity: An inclusive response, in consultation with partners across sport, leisure and disability equality. The national charity wants providers to consider the guidance as part of their ongoing commitment to disabled people’s inclusion.
