Cookies	Description
GA (including _ga _gid and _utm)	This cookie name is associated with Google Universal Analytics - which is a significant update to Google's more commonly used analytics service. This cookie is used to distinguish unique users by assigning a randomly generated number as a client identifier. It is included in each page request in a site and used to calculate visitor, session and campaign data for the sites analytics reports. By default it is set to expire after 2 years, although this is customisable by website owners.
Facebook (_fbp)	Used by Facebook to deliver a series of advertisement products such as real time bidding from third party advertisers
