

DYNAMIC DICE

THE GAME OF PIG...

Pig is a simple dice game which is playable with just a single die. You win by being the first player to score 100 points or more!

To play you'll need 2 to 10 players, one 6-sided dice, and a pencil and some paper for keeping score.

HOW TO PLAY:

Choose a player to go first. That player throws the dice and scores as many points as the total shown on the die providing you roll a 1. The player may continue rolling and accumulating points (but risk rolling a 1) or choose to end his turn.

If the player rolls a 1 their turn is over, they lose all of the points won on that go, and have to pass the die to the next player.

Play passes from player to player until you have a winner with a 100 points!

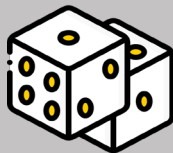

HOW DO YOU WIN?

The first player to accumulate 100 or more points wins the game.

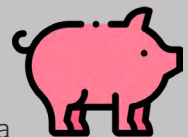

MASTERED THE GAME OF PIG? WHY NOT TRY...

TWO-DICE PIG

The same as Pig, except two dice are rolled. If neither rolls a 1, their sum is added together and added to the total. If a single 1 is rolled, the player scores nothing and the turn ends. If two 1s are rolled, the player's entire score is lost and their turn ends.

BIG PIG

The same as Pig, except two dice are rolled. If neither rolls a 1, their sum is added together and added to the total. If a single 1 is rolled, the player scores nothing and the turn ends. If two 1s are rolled, the player's entire score is lost and their turn ends.
