### **Active Essex Together Fund:**

Active Essex has received funding from 'Sport England's Together' fund to support communities who have been most affected by Covid or the cost of living crisis, and found it difficult to become or remain active. This includes four target groups which are ethnically diverse communities, disabled people, people with long term health conditions and lower socioeconomic groups.

The funding is for not-for-profit organisations and groups that want to find ways of getting/keeping their target audience (one of the above groups) active. We expect most awards to be between £1,000 to £4,000 depending on the need demonstrated.

### **Active Essex - Find Your Active fund:**

The RideLondon-Essex mass participation cycling event, which took place in May 2022, has led to a new strategic funding partnership between Active Essex, the Active Essex Foundation and London Marathon Charitable Trust (LMCT). As part of Active Essex's successful Find Your Active campaign, LMCT is powering a small grants programme to support Essex-wide projects that help residents lead active and healthy lives. Any organisation from Essex, Southend, or Thurrock can apply for this funding and the money can be used to start up new activities or increase the numbers attending existing activities, all with the aim of getting more people active. In light of the growing cost-of-living crisis, we're offering this funding to clubs and groups who can help get residents to be active in these challenging times and welcome organisations to inform us of the support they need. The fund is for organisations who are willing and able to take immediate action, and all activities will need to be completed by May 2023 or earlier.
