

# Festive Stuffed Apples

## Ingredients

- Apples
- Two types of sweet spreads of choice (E.g chocolate spread and peanut butter)
- Sprinkles

1. Turn each apple onto their side and cut 1/2 centimetre thick slices.

2. Using a cookie cutter, cut shapes into the apple to remove the core. We used a star cutter, but circles or other shapes would look just as good!

3. Spread your choice of filling onto one side of the cut apple, we used chocolate spread and peanut butter (not together) but you can use others such as honey or biscoff!

4. Sandwich a lolly stick and a slice of apple on top of the spread, add sprinkles and enjoy!
