

HAUNTED GHOST PIZZAS

INGREDIENTS

- Pizza bases
- Jar of tomato pasta sauce
- One mozzarella ball
- Handful of black olives

1. Use a spoon to spread some of the tomato pasta sauce all over the pizza base(s)

2. Next, slice up the mozzarella ball and then cut ghost shapes from the slices - we got around eight slices! Then place the ghosts randomly on top of the pizza

3. Now, cut some of the olives in half down the middle and place one olive half on the pizza as the spider body then thinly slice the other half into spider legs, placing these around the spider body on the pizza base!

4. Use the remaining olives to make the ghost eyes - we used the end of a straw to push into half an olive to get the round shape!

5. Cook in the oven for 10-15 mins at 210 degrees, then serve for the whole family to enjoy!

TOP TIP: If you want to make more than one pizza, pick up a couple more pizza bases and mozzarella balls - the tomato sauce will go a long way!
